

Tomorrow's Success:

The employment market is ripe with highly skilled personnel who have been "downsized" out of a job. Many are highly educated, success proven, departmentally cross trained, and eager to be integral in a smaller (more nimble) business structure.

Towards that end, please allow me to share/recommend an excellent "Employment Agency": **FOCUS AGENCY**

Thru a reference from a similarly engaging agency (who specializes in a different skill set placement), I requested-received a recommendation for an employee placement agency: "***the best in the country: FOCUS AGENCY***", more specifically, Kathryn Shepherd.

Within 2 days after we had engaged **FOCUS AGENCY**, we were supplied 3 resumes; within the first week we were provided over 6 applicants; by the second week, we were beyond "one dozen" highly qualified applicants". In my "one on one" dealings with Kathryn Shepherd, it was evident that there is a significantly skilled organization supporting her result driven efforts.

Each of the applicants were duly vetted for Resume Content, and Accuracy (with "appropriate margin notations") that may only be ascertained by a "Certified Staffing Agency".

"Applicants of Interest" were Assessed with confidential, concise (easy to read) and accurate reports. The confidential and investigative research performed on relevant "personal references" was spot on.

In 8 weeks time, we were able to transform the future of our business, thru the successful recruiting of our "new" Director of Marketing!

I recommend, **FOCUS AGENCY**, for today's economy, thru tomorrow's resources!

*".....have a hire future: **FOCUS AGENCY**"*

Dan Morhaus, CEO
