

I want to thank you with all my heart for your dedication to helping me find a wonderful career. With the changes in economy, the job market has been a very challenging environment for many people. All the more reason why I am so grateful that I had your guidance in making a very promising career move. It is because of your insight, dedication, wisdom and how incredibly "business savvy" you are that I have received an offer from an incredible company with a great future. I have greatly enjoyed getting to know you and your sense of humor just made the experience all the more wonderful!

I am highly recommending you to ALL of my colleagues & friends as they decide to make career changes. Once again, "Thank You" for all of your encouragement and help. I couldn't have done it without you!!
